TANK MAINTENANCE & REPAIRS

Tank Maintenance

Eventually all tanks need maintenance and/or repair. Some from longevity, some from vandalism, some from original poor workmanship, and some from mother-nature via earthquake, flood, hurricane, and/or tornado. Sometimes a tank location is no longer feasible and you need to relocate your asset. No matter what the case, Paso Robles Tank, Inc. has the experienced staff to meet your inspection needs. PRT offers a wide range of services besides new tanks. PRT can evaluate the most cost effective solution for your tank needs.

- API-653 Certified Inspectors
- SP-001 Inspectors
- NACE Levels I-II-III inspectors
- SCI Certified Welding Inspectors
- Certified, Licenses, and insured Engineering Team
- Certified Industrial Hygienists
- EN-385 Trained Staff
- Certified PADI Divers
- Certified Tiered I-II rescue Team
- SSPC C-3 lead certified coatings removal team.
- API- Certified Tank Entry Personnel
- PICS – ISNetwork – PEC – SWLA certified

Paso Robles Tank, Inc. has staff of professionally trained and certified inspectors and experienced workforce qualified to perform the tank inspections and maintenance that will bring your tank into compliance and, at the same time, provide you with many years of safe performance. PRT offers full tank, coating, and structural observation reports so that you the owner can make both short and long term decisions on your storage tank needs.

PASO ROBLES TANK, INC.

Paso Robles Tank, Inc. is a full service tank contractor serving the Western United States. Our staff and field crews have hundreds of cumulative years of tank building and coating experience. Our employees bring a wealth of experience from all over the world.

Our motto is: Safety + Quality = Production. We live by this philosophy and practice it daily.

Paso Robles Tank, Inc. is a mid-sized company, an advantage we use to deliver the highest quality and service to our customers. We utilize every piece of automation and state of the art machinery, while still working with customers on a personal level to make sure project goals exceed expectations.

Our team of talented personnel will provide the services you need to get the job done from start to finish: turn-key design, fabrication, shop coating, field erection and field coating. Paso Robles Tank, Inc. has in-house engineers who can stamp and certify all of our calculations and drawings. We also coordinate the tie-in piping, venting accessories, sensors and cathodic protection when necessary.
