PASO ROBLES TANK, INC.

Our ultimate goal since our inception in 2000, has been to set the standards in the carbon welded steel tank industry. As part of our continued investments, in 2016, we entered the bolted tank market with the launch of our Bolted Tank Division. The state-of-the-art production line is located in our 65,000 square foot facility in Hemet, California. By partnering with the best names in the business, we created a process that guarantees the highest quality and most consistent coatings for all tanks we manufacture.

THE INDUSTRY LEADER IN BOLTED TANKS

We take great pride in leading the industry with engineering, fabrication, civil construction, painting and coatings, modification, repairs and maintenance of aboveground storage tanks and specialty vessels. Our bolted tanks are designed to the rigorous AWWA D103 standards and are a specified alternative to field welded and coated tanks. With a streamlined and fully automated 1,000-foot coatings line and the support of our in-house engineering staff, it allows us to provide the best bolted tank in the industry. Whether it is for water/wastewater, dry storage or fire protection water application, we excel in the ability to quickly and cost-effectively meet the needs of our customers.

• BOLTED TANK FABRICATION •

Foundations

- ▶ Full Concrete Slab
- ▶ Ring Wall w/Gravel or Oil-Sand
- ▶ Grade Rings for Gravel or Sand

Tank Fabrication

- ▶ Paso Robles Tank Factory Trained Crews
- ▶ Designed With the Option of Building It Yourself

• BOLTED TANK FEATURES •

REPAIRS & RELOCATIONS BY SKILLED & CERTIFIED CREWS

UPGRADES & MODIFICATIONS FOR ANY SIZE TANKS

RETROFITS & RECOATINGS TO MEET WITH OPERATIONAL CHANGES

SETTING THE BENCHMARKS IN BOLTED TANKS

No matter the request or specialized project that is required, Paso Robles Tank has the infrastructure in place to offer a product that is exceptionally engineered, aesthetically pleasing, and always safely fabricated. At the end of the day for a project to succeed, owners and operators need a company they can rely on to minimize costs while upholding Paso Robles Tank's motto.

SAFETY FIRST

Our entire team thinks SAFETY FIRST! Our top-down dedication of PRT management to employee well-being allows us to keep everyone working safely and productively year-round, making us the most competitive tank contractor on the West Coast.
