STI / SPFA AWARD WINNING TANK OF THE YEAR - MULTIPLE YEARS CONSECUTIVELY AND COUNTING!

STAINLESS STEEL TANKS

PASO ROBLES TANK, INC.

Paso Robles Tank, Inc. manufactures both shop & field erected tanks. Our capabilities include: design, engineering, drafting, foundation/pad design, construction and complete Stainless Shop fabrication and installation of any size tank. PRT can provide tanks ranging from 330 to 600,000 gallons. Offloading, setting, and anchoring installation are available upon request.

YOUR TURNKEY TANK SPECIALIST

PRT CAN ENGINEER YOUR JOB!

Each tank is custom designed for your winery's needs. PRT offers in-house certified civil and structural engineers, that design and review all projects from conception to finished product. PRT has years of collective experience building thousands of stainless steel tanks and understand the needs of the wine making process.

THE MOST WINE FRIENDLY, PORTABLE FIELD TANKS IN THE INDUSTRY

PRT is equipped with two stainless steel manufacturing shops in Sparks, NV and Paso Robles, CA and can provide field labor construction, where required by contract, to ideally service all wine regions nationwide. PRT works relentlessly to provide the highest quality products and materials for superior work. We here at PRT pride ourselves in our in-house engineered tank doors, accessories and services. Below are just a few of the many items that we offer for each tank.

- Fully Jacketed Tanks
- Customized Tank Doors Manufactured in House

PRT STAINLESS STEEL TANKS A CORNERSTONE OF RELIABILITY

Paso Robles Tank, Inc. is a full-service above ground storage tank contractor who does business all across the United States. Our staff and field crews have hundreds of cumulative years of tank building experience. PRT incorporates highly trained associates, factory automation and state-of-the-art machinery to produce quality tank products, while working with customers on a personal level to ensure project goals exceed expectations.

+ SAFETY FIRST +

Our entire team thinks SAFETY FIRST! Our top-down dedication of PRT management to employee well-being allows us to keep everyone working safely and productively year-round, making us the most competitive tank contractor in the above ground storage tank industry.

• SERVING INDUSTRIES •

**Refineries • Mining • Power • Pipelines • Government
Pulp & Paper • Food & Beverage • Transportation
Thermal Energy Storage • Asphalt • Petrochemical
Water & Wastewater • Aviation**

Our team of talented personnel will provide the services you need to get the job done from start to finish including, but not limited to: turnkey design, fabrication, shop coating, field erection and field coating. PRT has in-house engineers who can stamp and certify our calculations and drawings. PRT also can coordinate the tie-in piping, venting accessories, sensors and cathodic protection when necessary. We at Paso Robles Tank are pleased to serve the Wine and stainless-steel tank markets and strive to produce tank products which exceed our customer's expectations.

Parent company **Associated Construction and Engineering, Inc. (ACE)** headquartered in Laguna Hills, California, is a premier specialty tank company with independent subsidiaries. Each subsidiary is unique and collectively with years of experience, proudly provides new tank construction, repairs and maintenance, engineering, fabrication, piping, civil construction and specialty painting to the aboveground storage tank clients in an array of industrial markets, government and public utilities nationwide.
